"THANK YOU" To our many Landowners, who give so generously of your lands to make our trail systems possible.

PLEASE RESPECT THEIR LANDS

Many OFSC Prescribed Trails cross private property provided through the generosity of the landowner. STAY ON MARKED TRAILS. Carry litter out with you. Do not damage gates, fences or other property. Say thanks to Landowners at every opportunity. Your ability to keep on riding depends on it!

ATV's are not permitted on OFSC trails or on private land without written permission from the landowner.

If you have any time to spare and would like to get involved, please contact anyone on the executive for more information. Come out, bring the whole family and enjoy yourself meeting and working with others who are interested in the sustainability of a great winter sport. We need help in getting trails opened signed and staked. It is imperative that our signage meets regulation standards. Training is available for anyone interested in helping with the signage project. **Sign theft and vandalism is a serious threat to the safety and well being of all trail users.** A missing sign could result in a serious injury or fatality, the removal or defacing of these regulatory signs is a criminal offence. Please, report missing signs to club contacts. Our trails are not opened until sufficient snow has accumulated to allow them to be groomed at least once and gates or bars are opened. Lake crossings are not opened until staked. We are continually striving to improve our trail system and to eliminate as many ice crossings as possible. Those trails depending on ice crossings will not be open until conditions permit.

The K&P is not publishing a new trail guide this season, the most current one is 2006. We have had more trail closures and re-routes this year, these trail changes will be communicated by trail signage. District trail guides are available at all permit outlets.
